Online Services

Search Engine Optimization (SEO): Optimization of relevant keywords in order to improve placement in search engine results pages (SERPs).

Search Engine Marketing (SEM): Professional link building and the placement of paid links, as a basis for your marketing strategy.

Web Applications: Management and support of web projects of all sizes, including online stores, community management projects and much more.

Domains

The Covus Core domain portfolio consists of more than 25,000 domains. Buyers can select from our large pool of quality domain names for their web projects. Additionally, we offer one of the leading dynamic domain search tools. Using the search function at domtain.de you can quickly and easily find a relevant domain for your upcoming web project. For additional information, contact us at domains@covus.de
